

## abstract

Formats an abstract section

```
#abstract[This is an abstract]
```

## Abstract

This is an abstract

### Parameters

```
abstract(body: content) -> content
```

**body** `content`

The abstract body

## course

Formats course name at top left of first page

```
#course("02456 Deep Learning, DTU Compute,  
Fall 2025")
```

02456 DEEP LEARNING, DTU COMPUTE, FALL 2025

### Parameters

```
course(c: content) -> content
```

**c** `content`

The course name and time

## names

Formats the author names at the top of the page

```
#names()  
  "Anders Andersen (S123456)",  
  "Bent Bentsen (S123457)",  
  "Christian Christensen (S123458)",  
  "Ditte Dittesen (S123459")  
)
```

Anders Andersen (S123456), Bent Bentsen (S123457)  
Christian Christensen (S123458), Ditte Dittesen (S123459)

### Parameters

```
names(names: array) -> content
```

**names** `array`

An array of author names including their student IDs

## **style**

Style a document by using this with a show rule

Usage:

```
#show: style
```

### **Parameters**

```
style(doc: content) -> content
```

**doc**    content

The document to style
